

Powiększenie plików (DEVICE)

Wykonujemy zalogowani do iSQL

```
use master
go

disk resize name = 'NazwaDevice1' , size = 'ILOSCM'
disk resize name = 'NazwaDevice2' , size = 'ILOSCM'
disk resize name = 'NazwaDevice3' , size = 'ILOSCM'
disk resize name = 'NazwaDevice4' , size = 'ILOSCM'
go
```

Przykładowy wynik:

```
1> use master
2> go
disk resize name = 'dataMegaz1' , size = '6000M'
2> disk resize name = 'dataMegaz2' , size = '6000M'
3> disk resize name = 'dataMegaz3' , size = '6000M'
4> disk resize name = 'dataMegaz4' , size = '6000M'
5> go
Successfully resized the device 'dataMegaz1' to 112128000 kilobytes.
Successfully resized the device 'dataMegaz2' to 112128000 kilobytes.
Successfully resized the device 'dataMegaz3' to 112128000 kilobytes.
Successfully resized the device 'dataMegaz4' to 112128000 kilobytes.
