

Sprawdzenie wolnego miejsca w SyBase

Wykonujemy zalogowani do iSQL

Dla wszystkich baz

```
use [NazwaBazy]
go

sp_spaceused
go
```

Bardziej dokładne query

```
set nocount on
go

select str(ceiling(sum(convert(float, (case when u.segmap != 4 then curunreservedpgs(u.dbid, u.lstart,
u.unreservedpgs) end))) * @@maxpagesize / 1048576), 16, 2) + ' MB'
from master..sysdatabases d, master..sysusages u
where u.dbid = d.dbid and d.status != 256 and d.name = 'NAZWA-BAZY'
group by d.dbid
go
```

Przykładowy wynik

```
set nocount on
2> go
1>
select str(ceiling(sum(convert(float, (case when u.segmap != 4 then curunreservedpgs(u.dbid, u.lstart, u.unreservedpgs) end))) * @@maxpagesize / 1048576), 16, 2)
+ ' MB'
3> from master..sysdatabases d, master..sysusages u
4> where u.dbid = d.dbid and d.status != 256 and d.name = 'Megaz'
5> group by d.dbid
6> go
-----
18641.00 MB
```
